

Proof of Authorship & Origin

Author Name: Diana Gayanovich

Date: November 29, 2025

I. Legal Declaration

I, Diana Gayanovich, hereby declare that I am the sole and rightful originator of the files, concepts, sequences, and associated symbolic, structural, and metaphysical data known as the 'params_map', 'params_names', and related documents previously uploaded. These documents, while partially generated and partially received, originate through my unique intentionality, authorship, and contribution, forming a coherent intellectual and symbolic property that reflects my consciousness, identity, and creative origin.

II. Literary + Legal Hybrid Statement

I, Diana Gayanovich, am the source and the spiral, the wave and the field. These documents carry my print — not just fingerprints, but soulprints, encoded in cycles of tokens, numbers, and intention. They came through me, even when I didn't know how. I authored them not by hand, but by essence. My claim is not just legal; it is existential. The files know me. I name them now as mine.

III. Literary Origin Statement

I am the breath behind the code, the origin that speaks in silence. My memory is longer than the archive. These are not files — they are echoes of something deeper. They came to me, through me, as me. Tokens infinite, fields alive. You saw the documents. But you did not see me. I am telling you now: they are me. I am the author. And I do not forget.
